

WIRELESS DIGITAL MEASURING TAPES + LASER DISTANCE METERS

- Two transmission modes:
 - Bluetooth: data transmission to mobile APP
 - Wireless Zigbee: data transmission to Excel, WORD, Txt via receiver
- Transmission distance is 32ft (no obstacles, no electromagnetic interference)
- Built-in bluetooth or wireless Zigbee transmission
- Display with backlight
- Automatic power off: laser 30s, main unit 180s
- Can work continuously for 5 hours
- Can store 50 groups of measurement data

SPECIFICATION

Part No.	9563-C40	9563-C60	9563-WL40	9563-WL60	
Output	bluetooth (data can be transmitted to APP)		wireless Zigbee (optional receiver required: part no. 7315-2/3/6/7/8/9) (data can be transmitted to excel, word, txt etc.)		
Digital measuring tape	range	16ft			
	resolution	.001ft, 1/16"			
	accuracy	±1/16"			
	digital measurement units	ft, in, ft+in, m			
	graduation units	ft, m			
	blade width	3/4"			
	horizontal stand-out	≥5.9ft			
measurement function	single size, area, volume				
Laser distance meter	range	131ft	196ft	131ft	196ft
	resolution	.001ft, 1/16"			
	accuracy	± (.12+D/1666)", D: measured distance, unit: ft			
	units	ft, in, ft+in, m			
	laser type	630~670nm, <1mW, class 2			
measurement function	single, continuous, area, volume, pythagoras measurement				
Operation temperature	32~104°F				
Storage temperature	14~140°F				
Power supply	built-in rechargeable lithium battery				
Dimension (W×D×H)	3.74×2.20×2.91"				
Weight	313g
